Research Details :

Research Title : A STUDY OF CERTAIN CORE MATERIALS
A STUDY OF CERTAIN CORE MATERIALS

Descriptpn : The cast Post and Core can be used to build up the coronal part of the broken tooth (1,2). Cast post and core may be very difficult to be used to replace the coronal part of posterior teeth. Also in some cases, the root canals may be curved, narrowed or short, so cast post and core will not be used (3 & 4).

Research Type : Thesis

Publisher : Al-Azhar Dental Journal

Added Date : Tuesday, May 06, 2008
